Overview:

The company Mario Caimi Srl with a seat in Turbigo, Milan, has been operating in the sector of tannery and laboratory accessories for forty years, and has achieved a very good reputation and become internationally renowned. Founded in 1964 to serve above all the tanning zone of Turbigo, then at the peak of its development, the business later extended to the tanning areas all over country and then to foreign markets also for the participation at a network of trade fairs.

Owner of the company, Mariangela PIDOLI CAIMI, is proud of his long experience as manager who is directly in touch with the customers. Reliability of the supplied materials and equipment, the staff professionalism, and the care in supporting the customers are the company's points of strength. As the catalog shows, Caimi's offer is complete, innovative and qualitatively valid. The range of products has widened, during the years, including new articles to meet the latest requirements of the tanning industry. The company Caimi included some time ago between its products also a wide range of Transfer Foils for skins' application.

The customers are invited to contact the company directly for articles that are not included in the catalog, as their warehouse offers everything you may need in the tanning industry.
