ARTIMPIANTI FOUNDRY SOLUTIONS

secteurs:

[Foundry & Metallurgical Machinery](#) ^[11]

Overview:

Established in the early 80's by the current owners and with its own headquarters nearby Saluzzo, ARTIMPIANTI is specialized in the design and construction of aluminium gravity die casting machines and plants as well as peripheral process automation and fettling systems for components such as cylinder heads, engine blocks, etc. Characterized by a design and manufacturing capability, ARTIMPIANTI has quickly become an important player in the supply of both individual machines and complete turnkey plants to major Customers in the specific industry sector. Nowadays, ARTIMPIANTI is a factual reality in the field of aluminium foundry plants thanks to a lean and flexible manufacturing structure that through its own conceptual philosophy, makes it an extremely dependable technological partner.
