Assomac

Sector:

[Footwear,
Leather Goods
& Tanning](#) ^[2]

Overview:

ASSOMAC is the National Association that represents the Italian Manufacturers of Machinery for Footwear, Leathersgoods, Tannery and Related Accessories; which are world leaders in this mechanical sector.

Worldwide Italian production represents more than 50% of all the exports of such manufacturing machinery in

this specific industrial sector. Every year, Italian companies export more than 70% of their production to 100+ countries around the world.

ASSOMAC and its member-companies have been in Asia and Pacific countries and throughout this time have accompanied the massive development of the leather and footwear sector.

It is not just quality that set Italian machinery apart from the competition. It is also customization. Italian leather machinery manufacturers work closely with their customers to create products that are “right” for the job, much like the relationship between suppliers and end-users.

SIMAC & TANNING TECH

[3], the exhibitions organized by ASSOMAC, have been the prime reality check on advancements in all the technology that contribute to efficient and productive manufacturing processes in the footwear, leather goods and tanning sector.
