Region:

Veneto

Overview:

Zoppas Industries Heating Element Technologies boast an experience of over 50 years in design and production of heating elements and systems, even completed with thermal controls for domestic and industrial applications. Thanks to its business units' high specialization in the different application areas from major to small domestic appliances and from comfort conditioning to the industrial market, Zoppas Industries Heating Element Technologies has solid competence and steady innovation in developing tubular heaters, cartridges and band heaters, etched foil, heating cables, stitched wire heating elements, finned aluminium heaters, functional assemblies, and electronic controls.

Production

Components.
