AB Trasmissioni Srl

Sectors:

[Construction and Earthmoving Machinery](#) ^[4]

Region:

Emilia Romagna

Overview:

AB TRASMISSIONI designs and manufactures solutions for power transmission, such as flexible couplings, rigid couplings, centrifugal couplings and pulleys, bell housings in cast iron, aluminium and welded iron, 40% of which is custom-manufactured.

Sensitivity and attention to customer's needs make AB TRASMISSIONI an integrated supplier of different complementary components, becoming the sole interlocutor and reference-point for a wide range of fittings for industrial engines and industry in general, like: solenoids, electric pistons, solenoid valves, heaters, transfer pumps, silenced exhausts and measuring instruments.

Clutches -Hydraulic and solenoid valves - Electronic monitoring and control devices - Hand pumps - Flexible couplings - Coupling joints - Pulleys.
