Overview:

Zucchini is located in Castel Maggiore (Bologna) in the heart of the packaging valley has been active in the Packaging Industry for nearly fifty years and has sold more than 4,000 machines. The company is firmly established as a supplier of reliable automatic packaging machines and customized solutions.

The impetus given by the new proprietors now managing the company, combined with the high standard of skill of the existing design engineers has enabled Zucchini Packaging to:

- rationalize and modernize the existing machines
- develop a new line of machines using the most up to date electronic technology

At present, Zucchini is able to offer:

- Wrappers and bundlers
- Vertical case packers and modern "pick and place" systems
- Horizontal and wrap-around casepackers
- Palletisers
- Bundle formers and shrink wrappers
- Software for line optimization

Special attention has been given to Technical Support in its dual function; first assisting customers in the choice of the most suitable machine specification to meet their requirements and secondly, supporting them with the supply of spare parts, overhauling and where possible the

up-grading of existing machines.

In order to monitor and respond to the specific requirements of their customers and to direct the continuous development of innovative solutions, special divisions have been set up within the company to collect the valuable knowledge and experience gained during many years of activity in the Packaging Industry.
