Frigojollinox srl

Sectors:

[Food Technology](#) [5]

Region:

Molise

Overview:

**We Are Specialized
In Manufacturing Of Equipments
For The Following Sectors:**

- CANNED FOOD
- DAIRY
- COSMETIC

Quality And Tradition

The company mission has always been focused on delivering HIGH QUALITY products, functioning and energy efficient, able to process the raw material without changing the organoleptic characteristics and in full compliance with TRADITION. In addition the fair value for money, low environmental impact and reliability are key features of all our plants.

Research, Development And Innovation, All Made In Italy

We design, develop and construct all the plants in our company. The whole process involves structural and electrical works, water, gas and air plant design. Each plant is carefully tested in our company, following strict criteria and controls.

Our Experience At Your Service

We are well established reality on the market place since

1977. The company history is a guarantee for our customers, who can have a tangible proof of our seriousness and of the quality of products and services offered. We offer products for construction type and capabilities which are unique in Europe.
