VITAP spa

Sectors:

[Plastics and Rubber](#) ^[4], [Wood](#) ^[5]

Region:

Toscana

Overview:

Vitap has been present for over 60 years in the field of woodworking machines. Nevertheless, our machines are also able to process materials in corian, bakelite and HPL (High-Pressure decorative laminates).

These qualities have allowed us to become an important reality in the sector, established worldwide, able to work in about 80 countries.

The Vitap range includes CNC machines, edgebanding machines and boring machines for processing wooden panels.

Production:

Punching machines

Milling machines
