## Automate 2021

The [Automate 2021 Show and Conference](#) <sup>[15]</sup>, North America's largest showcase devoted to automation industry trends, leading-edge technology and business innovation, is taking place May 17-20, 2021 at TCF Center in Detroit, Michigan. The biennial event, previously located in Chicago, is the biggest yet with more than 500 exhibitors poised to share the latest technologies with 20,000+ attendees hoping to implement automation to better compete in the global market.

Automate, North America's largest showcase devoted to automation industry trends, leading-edge technology and business innovation, ended its eight year run in Chicago with record numbers. According to preliminary figures, more than 20,000 walked the show floor at the biennial event – an increase of 25 percent over 2017 – to see the advancements in robotics, vision, motion and advanced automation technology from over 500 exhibitors from around the world.

2021 promises that Italy will once again have a strong presence at the show, either directly from Italy or via their North American subsidiaries.

About the organizer:

Association for Advancing Automation (A3)

The Association for Advancing Automation is the global advocate for the benefits of automating. A3 promotes automation technologies and ideas that transform the way business is done. A3 is the umbrella group for Robotic Industries Association (RIA), AIA - Advancing Vision + Imaging, Motion Control & Motor Association (MCMA) and A3 México. RIA, AIA, MCMA and A3 México combined represent over 1,200 automation manufacturers, component suppliers, system integrators, end users, research groups and consulting firms from throughout the world that drive automation forward. For more information, visit: [A3](#) <sup>[16]</sup>, [RIA](#) <sup>[17]</sup>, [AIA](#) <sup>[18]</sup>, [MCMA](#) <sup>[19]</sup>, [A3 M](#) <sup>[20]</sup> [é](#) <sup>[21]</sup> [xico](#) <sup>[21]</sup>.
