

Not only filter pumps
Try something different

Why Us?

Let us giving you the best quality filtration performances:

as some of our foreign customers explained us, our filter pumps seem to be different from the other for their design, dimensions and materials.

*For this reason we would like to illustrate **“the reason why”** here below.*

The robustness of each component and the construction of the filter unit are a guarantee of durability and degree of high filtration (< 1 μ) of OMG filter pumps

O.M.G. S.A.S. DI GIBOGINI
