ITALIAN STONE TECHNOLOGY

When you buy Italian equipment you're entering into a partnership with the world's most highly skilled engineers and manufacturers, offering versatile and customized solutions. Italian Stone Machinery companies offer advanced technologies which make Italy a global leader, producing equipment ranging from processing machines for drilling, cutting and polishing, to CNC machines and hand-held machinery. Today, more than ever, it is essential that US stone processors, fabricators and manufacturers have innovative solutions and know-how. Visit the **Italian Stone Technology Pavilion at booth 4558** to see how Italy can help you move your business forward.

OMAR CRANE SRL is a manufacturer of mobile cranes fully equipped with accessories for loading and unloading marble and granite bundles into/from box containers.

PICOROC is specialized in the design, production and assembly of hydraulic drilling machines and diamond wire cutting machines suitable for use in marble, granite and ornamental stone industry and civil engineering.

PROMETEC is a global player in the design and construction of highly technological machinery for stone processing: polishing lines and handling for stone, quartz, and ceramics; it excels in innovative treatment plants. With over 400 installations for resin, stone pigmentation, anti-oxidation, anti-stain and anti-acid processes, for leading companies in the industry.

ZARES is specialized in the design, development and production of 2D and 3D vision and measurement systems. Manufactures and distributes ZARES, the award-winning best of product and best of technology and known all over the world.

The Italian MARMOMACCHINE Association - also known as CONFINDUSTRIA MARMOMACCHINE - is the Italian Association of Producers and Processors of Marbles, Granites and Natural Stones in general, and of Manufacturers of Machinery, Complete Plants, Tools and Complementary Products to quarry and processing Natural Stones. The more than 320 companies and territorial consortia belonging to CONFINDUSTRIA MARMOMACCHINE, located in all of the major Italian production districts, guarantee the association broad representation both in Italy and worldwide. It also has an important role as sole sector interlocutor with ministries, ITA-Italian Trade Agency, Confindustria, standardization boards such as UNI and CEN, labor unions, universities and polytechnics, Italian and foreign federations and associations, Trade Fairs in Italy and around the world. In addition to its own advocacy mission in favor of the national marble and techno-marble supply chain, the association has always engaged in intense technical job training in Italy and abroad, organizing, managing and creating highly specialized educational programs and technological centers in various parts of the world, with the involvement of local governments, institutions and associations.
