ITALIAN PACKAGING MACHINERY INDUSTRY

With sales of more than 8 billion euro, the Italian automatic packaging machinery sector is a dynamic industry with one of the highest export propensity (more than 80%) and consists of some 200-250 industrial-sized companies.

Italy's world-leading industry competes head-to-head with German manufacturers for the international leadership position. In fact, more than 50% of all automatic packaging machinery sold worldwide is either Italian or German.

The industry's leadership position is based on four essential factors: a high level of technology and product quality, an extremely high level of customization and operating flexibility of machinery, rapid after-sales support in all world markets, and a high degree of competitiveness, based on a combination of large integrated groups and highly specialized small and medium-sized enterprises that, as a whole, offer a full range of machinery for all types of products.

Most Italian packaging machinery is sold to the food sector, which accounts for around 60% of the industry's turnover, followed by the pharmaceutical, cosmetics and toiletries sector with just under 25%, and other important sectors such as tobacco, chemicals-petrochemicals and tissues.

We are proud to sponsor this year's cohort of 13 Italian companies from the packaging machinery sector at Pack Expo 2021 under the Italia, ITA and Ucima logos.

Visit the Italy pavilion and explore how they, and the Italian Trade Agency, can help you expand your business.

ITA – Italian Trade Agency

Chicago Office

401 N. Michigan Avenue, Suite 1720

Chicago, IL. 60611 USA

T. +1 312 670 4360

chicago@ice.it

www.ice.it/en

ITA – Italian Trade Agency is the government agency officially tasked with supporting the international business development of Italian companies and promoting the attraction of foreign investment to Italy.

With a motivated and modern organization of offices in 70 countries around the world, ITA provides information, assistance, consulting, and training to Italian small and medium-sized businesses in addition to using the most modern multi-channel promotion and communication tools to assert the excellence of 'Made in Italy' globally.

It is directly involved in promoting and fostering exports and cooperation in all areas - industry (consumer and capital goods), agricultural technology and agri-food, services, and training. The ITA works closely with the Italian Regions, the Italian Chambers of Commerce, business organizations and other public and private entities. Its headquarters is in Rome and its network of offices around the world act as "Trade Promotion Sections" of the Italian Embassies or Consulates.

UCIMA

Villa Marchetti

Via Fossa Buracchione 84

41126, Baggiovara, (Modena) Italy

T. +39 059 512146

uff-promo@ucima.it

www.ucima.it

UCIMA (Italian Packaging Machinery Manufacturers' Association) is the national trade association which represents and supports the Italian packing and packaging machinery manufacturers. It has more than 100 member companies from all over Italy, including the industry's primary leaders.

Member companies cover the entire range of packaging machinery production, from food, confectionary, and tobacco industries through to pharmaceuticals, chemicals, petrochemicals, cosmetics, and end-of-line technologies. These companies contribute to making Italy one of the world leaders in packaging machinery, with a global market share of 25%, with the United States, France and China being the top export markets.
